

Ultimate Continuous Pot, Pan & Sheet Pan Washing System.

Armored to assist your dishroom operators by eliminating the scrubbing; saving their time to do more efficient duties.

ULTRA-Customizable

Each Dishroom comes with its unique demands and footprint. That's why every Ultrawash is custom configured with the options specific to your operation. Overhead and under table shelving perfectly utilize wasted space. Ideal for storing whatever you feel you may need within reach.

ULTRA-Powerful

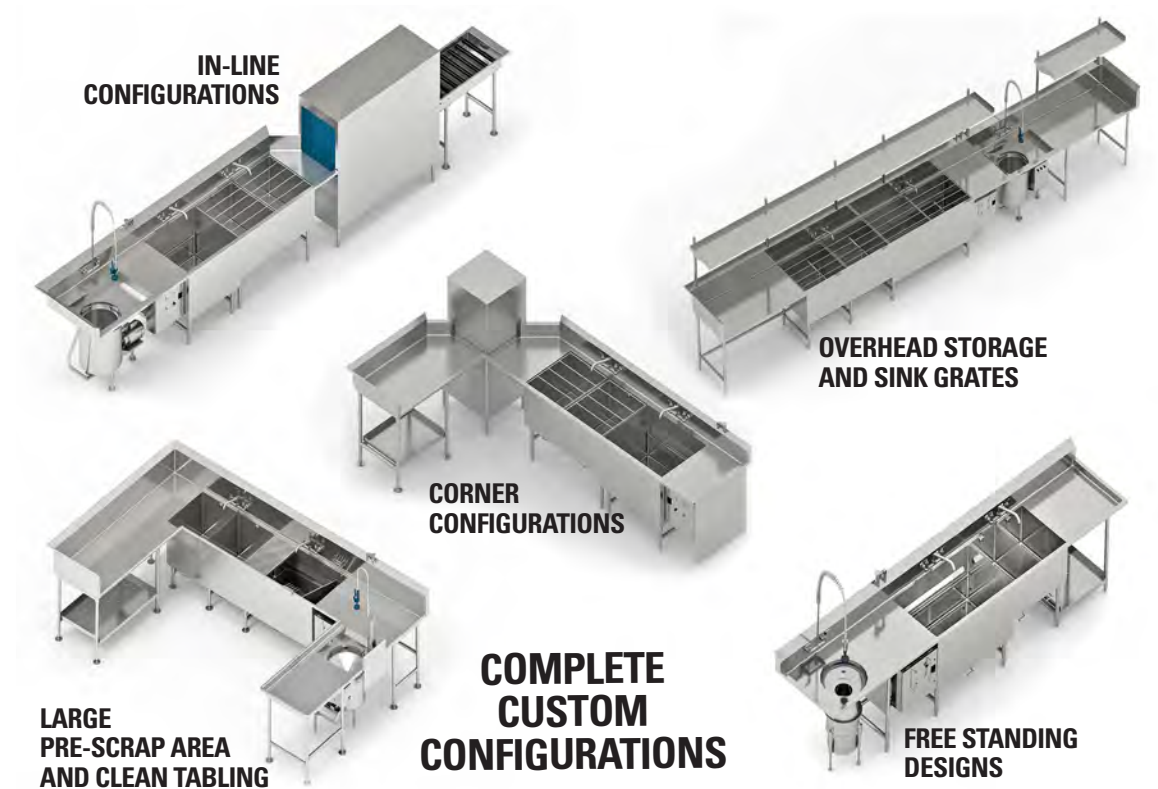

Water jets strategically located for turbulent back to front powerful wash action. Making easy work of removal of heavy oil and grease from pots and pans.

- Heavy duty energy efficient pump motor
- Stainless steel impeller (self-draining)
- PLC Pro Logic Controls of your dishroom
- Custom heating element

ULTRA-Robust

Durable and sturdy construction; 14ga. 304 S/S, 3/4" fully welded coved corners, 1-5/8" Ø understructure. Ready to face the heavy-duty challenges of your dishroom.

All these components ensure years of trouble-free operation.

I can help you configure your Ultrawash to your specific Dishroom needs.
